

**TMK UP™ QX TORQ**

# TMK UP<sup>TM</sup> QX TORQ

## TORQ SERIES

---

Range: 4 1/2" - 13 5/8" mm

### Applications

- Extreme Torque
- Production Casing
- Production Tubing
- Intermediate Casing
- Liners and Tie-Backs
- Rotating during Installation
- Rotating while Cementing
- HPHT

### Dovetail Threads

- Increased tension and compression efficiency
- High bending capacity and evenly distributed stresses
- Extreme torque capacity

### Sphere and Sphere Metal-to-Metal Seal

- Exceptional sealability for fracking and gas or liquid production
- Extraordinary performance under combined loading
- Sealability validated using stringent Cal IV testing

### Run-Out Threads

- Maximizes critical cross-sectional area
