TMK UP™ CWB II

TMK UP™ CWB II

LITE SERIES

Unique Feature:

- Compatibility with API Buttress
- Rotateable connection
- Enlarged torque shoulder for high torsional capacity and increased compression performance

Thread Profile:

- Buttress thread form interchangeable with API Buttress eliminating the need for expensive crossovers
- Sealability through thread compound

Shouldered Coupling:

- Enlarged torque shoulder
- Protection against overtorque
- Additional sealing barrier
- Internally flush which eliminates turbulent flow
- Repeatable, consistent make-up position
- Reduces connection hoop stress
